

The Great Escape Under the Sea

We Are Scientists

Making my escape
Making my escape
Tell myself that
Everything's in shape
Everything's in shape
But me
How long can this take
How long can this take
Tell myself that
Everything is great
Everything is great
Well how'm I doing? I gotta great idea
I'm gonna wait right here
I gotta great idea
I'm gonna wait right here
While everything is adding
Up, up, up
Everything is adding
Up, up, up Breaking both my hands
Breaking both my hands
Telling me to
Take it like a man
Take it like a man
I can't
I don't understand
I don't understand
Please repeat whatever you just said
Nothing's making sense
Well how'm I doing? I gotta great idea
I'm gonna wait right here
I gotta great idea
I'm gonna wait right here
While everything is adding
Up, up, up
Everything is adding
Up, up, up Breaking both my hands
Breaking both my hands
Telling me to
Take it like a man

Take it like a man
I can't
I don't understand
I don't understand
Please repeat whatever you just said
Nothing's making sense
Well how'm I doing? I gotta great idea
I'm gonna wait right here
I gotta great idea
I'm gonna wait right here
While everything is adding
Up, up, up
Everything is adding
Up, up, up
