Blistered

Strife

Blistered by a raging sun's flames
Mankind sealed its fate in its haste
Warning signs sent time after time
We just sit back in all this waste
All this waste
And I will not wait
I'll climb from this place
I'll climb to the truth
To the truth
Blackened skies poisoned ashes cried
Mankind sealed its fate in it's haste
Warning signs sent time after time
We just sit back ignore the waste
All the waste
An I cannot wait
I'll climb from this place
I'll climb to the truth
To the truth
To the truth
Looking to the skies I can see the ashes falling
Looking to the shy I can see it all coming down
I can never give up
I can never give up my fights right
I can never give out
I can never give out because mine is right
My fight is truth
My fight is truth
