

Metal

Gary Numan

We're in the building where they make us grow
And I'm frightened by the liquid engineers like you
My Mallory heart is sure to fail
I could crawl around the floor just like I'm real like you
The sound of metal, I want to be you
I could learn to be a man like you
Plug me in and turn me on
Oh, everything is moving
I need my treatment, it's tomorrow they send me
Singing, "I am an American", do you?
Picture this if I could make the change
I'd love to pull the wires from the wall, did you?
And who are you and how can I try?
Here inside I like metal, don't you?
All I know is no one dies
I'm still confusing love with need
