# screwdriver

## [unknown]

Tuesday morning now
I gotta have somewhere to go
I call up tommy now
I call him on the telephone
Won't you wake up and come with me now
I'm going to the pawn and loan
Walking down thirty three
Walking on thirty oWell what am i supposed to think
I drop a nickel in the sink
I love people like a brother now
But i'm not gonna be their mother now
What if someone walked up to me
And like an apple cut right through me
I'm not just gonna stand and grin
I'm not the one who's sinninScrewdriver
Now that you have heard my story now
I've got a little ending to it now
Whenever you go out alone
Take a little dog a bone
Think about your little sister
Then you got to drive it home
With a screwdriverI got a little feeling goin' now
I got a little feeling goin' now
