

Confessional Booth

Kevin Max

If angels were men, well then they couldn't fly
And if birds had souls they would forever glide
If people would love then more of us would be alive
 Oh my my oh my
 If you were me you wouldn't sleep at night

 I take back everything I said
 That ever caused you pain or stress
 I take it back just like that
 I take it back just like that

If trees weren't chairs they'd all give us life
And if the truth didn't hurt so much then I wouldn't lie
 If we could trust then maybe we could have a try
 Have a, have a try
 If you were me you'd see the lies

 I take back everything I said
 That ever caused you pain or stress
 I take it back just like that
 I take it back just like that

 You know that justice is so blind
 So help me tip the scales back tonight

 I take back everything I said
 I take back everything I said

 I take back everything I said
 That ever caused you pain or stress
 I take it back just like that
 I take it back just like that

 I take back everything I said
 I take back everything I said

I take back everything, everything, everything I said
