Back For More

A-teens

I know I might seem weird
One day I'm around the next I disappear
This is a crazy act
But I won't break up, kiss and make up that's a fact
'Cause always, ever, after and on
When you think the party's over look over your shoulder
I'm at your door, coming back for more
Dancing in the moonlight, 'til the break of day like we did before
We'll be coming back for more
We're on a one-way ride
And all I need is someone like you by my side
You saw the movie too
We'll ride into the sunset like they always do
For all days, all nights, hours I'm gone
When you think the party's over look over your shoulder
I'm at your door, coming back for more
Dancing in the moonlight, 'til the break of day like we did before

We'll be coming back for more
If I'm still number one
The one your looking for
I won't be gone for long
Now I'll be back for more
When you think the party's over
Just look over your shoulder
We'll be coming back for more
When you think the party's over look over your shoulder
I'm at your door, coming back for more
Dancing in the moonlight, 'til the break of day like we did before
We'll be coming back for more
When you think the party's over look over your shoulder
We'll be coming back for more
Dancing in the moonlight, 'til the break of day like we did before
We'll be coming back for more
