

# Back For More

## A-teens

I know I might seem weird  
One day I'm around the next I disappear  
This is a crazy act  
But I won't break up, kiss and make up that's a fact  
'Cause always, ever, after and on  
When you think the party's over look over your shoulder  
I'm at your door, coming back for more  
Dancing in the moonlight, 'til the break of day like we did before  
We'll be coming back for more  
We're on a one-way ride  
And all I need is someone like you by my side  
You saw the movie too  
We'll ride into the sunset like they always do  
For all days, all nights, hours I'm gone  
When you think the party's over look over your shoulder  
I'm at your door, coming back for more  
Dancing in the moonlight, 'til the break of day like we did before  
  
We'll be coming back for more  
If I'm still number one  
The one your looking for  
I won't be gone for long  
Now I'll be back for more  
When you think the party's over  
Just look over your shoulder  
We'll be coming back for more  
When you think the party's over look over your shoulder  
I'm at your door, coming back for more  
Dancing in the moonlight, 'til the break of day like we did before  
We'll be coming back for more  
When you think the party's over look over your shoulder  
We'll be coming back for more  
Dancing in the moonlight, 'til the break of day like we did before  
We'll be coming back for more
