Mary... Mary...She takes me so far away  
Mary really makes my day  
Me and her connect in a passionate way  
She's there when I need her  
I will never leave her  
No, because she takes me so far away  
Mary really makes my day  
Me and her connect in a passionate way  
In a passionate way yeah..Rise inna di morning when I get a cup of tea  
Best believe I got mary sitting right next to me  
Always need her inna the vicinity  
She grow inna the hills and she's a natural Beauty  
how love her sweet of aroma  
Her perfume is is why I love when she come over  
She free me up and take the burdens of my shoulder  
I watch her grow from she was young and now she is olderand she takes me so far away  
Mary really makes my day  
Me and her connect in a passionate way  
In a passionate way yeah..  
She is there when I need her  
I will never leave her  
No, because she takes me so far away  
Mary really makes my day  
Me and her connect in a passionate way  
Hmm.. in a passionate way yeah..Mary eases the mind and her love is like a medicine  
I need her all the time I know  
Mary inspires, Mary's got the vibes that the massive requires..  
The massive desires.. ehh!  
When she is gone, I lose my mind  
When she comes she brings the sunshineShe takes me so far away  
Mary really makes my day  
Me and her connect in a passionate way

She is there when I need her  
I will never leave her  
No, because she takes me so far away
