

# Live A Lie

Jazmine Sullivan

How you goin' do that to me? (sigh)  
I can't believe this I wish I never ever got drunk that night  
Made me foolish enough to come to your crib  
Walked up the stairs and then I turned on the lights  
Couldn't even speak because it happened so quick  
I wish I never saw your punk ass that night  
You always seem to calm me down with your lies  
Even though I know better I try and I try  
But you always have the perfect alibi If a lie goin' get me through  
I rather not know the truth  
If the truth goin' make me cry  
I rather just live a lie If a lie goin' get me through  
I rather not know the truth  
If the truth goin' make me cry  
I rather just live a lie I wish I never ever saw you that night  
Rite now I'd still be thinking we were OK  
I called you just before I got on my flight  
I say 'I love you', And you tell me the same  
If I could go back in time  
I never would of called your phone up  
Never would of dialed your number  
Never would of gotten that drunk  
If I could go back in time  
I never would of gotten that tore  
Never would of asked for one more  
Never would of walked through your door If a lie goin' get me through  
I rather not know the truth  
If the truth goin' make me cry  
I rather just live a lie If a lie goin' get me through  
I rather not know the truth  
If the truth goin' make me cry  
I rather just live a lie Easier to live  
Like you don't see nothing  
Even tho it ain't rite  
Harder to turn over in your bed and he ain't by your side  
I think if I didn't walk in that night  
And see you with my own eyes  
I would still be living a lie Just gotta know  
Whatever you do

It's goin' come back to you  
I cant' believe thisIf a lie goin' get me through  
I rather not know the truth  
If the truth goin' make me cry  
I rather just live a lie
