

# Wish I

Allison Moorer

Wish I was really going  
Wish I was a blacktop road  
Wish I was a steamwheel  
Wish I was a radio  
Wish I was in your pocket  
Wish I was on your mind  
Wish I was a boot you're wearing  
Wish I was your valentine But I guess I ain't your Cinderella  
And if you don't want me then I don't want you back  
Can't stop the rain better hold an umbrella  
I don't know much but I knew that Wish I was your whiskey baby  
Wish I was on your breath  
Wish you would hold me like you hold your cigarette  
Wish I had a song for you to make you love me  
Wish I could sing for you  
Wish I could make us right But I guess I ain't your Cinderella  
And if you don't want me then I don't want you back  
Can't stop the rain better hold an umbrella  
I don't know much but I knew that
