

# Hate At First Sight (Digipack Version)

Lordi

It's lovely to see you  
Fall off the stairs  
Breaking your skull in two There's nothing you won't do  
IV with air  
Pull the plug and say I do Beware in the bed  
I might cut off your head  
you choke me blue with the pillow tie  
this love was never alive CHORUS  
It was hate at first sight for us darling  
The lady and the tramp rabid and snarling  
Awkward lovers and charmers worth mauling  
It's a match made in hell, cupid's squalling  
Your scent's fascinating  
For maggots and worms  
Eating your flesh away You say my eyes are engaging  
To watch when I burn  
Going pop in the flames Beware in the bed  
I might cut off your head  
You choke me blue with the pillow tie  
This love was never alive CHORUS  
It was hate at first sight for us darling  
The lady and the tramp rabid and snarling  
Awkward lovers and charmers worth mauling  
It's a match made in hell, cupid's squalling - squalling [Solo]  
It was hate at first sight for us darling  
The lady and the tramp rabid and snarling  
Awkward lovers and charmers worth mauling  
It's a match made in hell, cupid's squalling It was hate at first sight for us darling  
The lady and the tramp rabid and snarling  
Awkward lovers and charmers worth mauling  
It's a match made in hell, cupid's squalling
