

# Stop

## Sheryl Crow

Find someone in love  
Hold them so close  
It's not close enough  
Moment to moment time's slipping away  
While you're looking for something you're hoping to find  
Are the things that you wanted within all the time  
You say stop  
Stop the world spinning  
Faster and faster  
We're losing our way  
You say stop  
Stop all this running  
Wanting to stay in one place  
Oh I know I was wrong  
Selfish am I to let you go on  
Just couldn't see what your love meant to me  
Till it was gone and all hope has faded away  
I could beg I could pray  
That you'd come back one day  
But you say stop  
Stop the world spinning  
Faster and faster  
We're losing our way  
You say stop  
Stop all the running  
Wanting to stay in one place  
Next time I know  
There's no time to waste  
If there is a next time  
I will stand up and say  
I say stop  
Stop the world spinning  
Faster and faster  
We're losing our way  
I said stop  
I'm only beginning to understand half the way  
Time slips away  
You say stop  
Time slips away  
Away
