

# Wake Up Call

## Hawthorne Heights

Swim through these waters  
My lungs collapse as I'm gasping for air  
I'll breathe you in  
You are my oxygen alone  
My love Through arteries untold  
Your skin is pale, my body's cold  
Way down, deep down in my lungs  
I can hear our sweet decay So spill my blood  
So spill my blood  
Midnight skies turn scarlet red Say so long, say goodnight  
And just hold out your hand  
To catch me if I fall into the night  
Say so long, say goodnight  
And just hold out your hand  
To catch me if I fall Everyone and everything  
Feels like it slips away  
Way down, deep down in my lungs  
I can hear you as you fade So spill my blood  
So spill my blood  
Midnight skies turn scarlet red Say so long, say goodnight  
And just hold out your hand  
To catch me if I fall into the night  
Say so long, say goodnight  
And just hold out your hand  
To catch me if I fall Wake me up from this nightmare  
Wake me up, I know that I am drowning  
In the blood Wake me up from this nightmare  
Wake me up, I know I am drowning  
In the blood from a pitch black heart Cut my throat, spill my blood  
Cut my throat, spill my blood  
Pitch black heart Say so long, say goodnight  
And just hold out your hand  
To catch me if I fall into the night  
Say so long, say goodnight  
And just hold out your hand  
To catch me if I fall
