

# I Wish It Was Love

Music by mitchell lennox & julien nairolf

Lyrics by melanie thornton, mitchell lennox & julien nairolf

I wish it was love

I wish it was freedom

Many times I thought that it was meant to be

I gotta feel love

I gotta feel a reason

To wash away the fear

No more games to play

No more words to say

I'm sorry, there is nothing more to say

For my heart to heal

This is how I feel

So sorry, there is nothing more to say

I see it now like the rain is falling

Falling from the clouds that hide the sun

It's over now, a new day is dawning

It's time we go our own way

No more hearts to break

Promises to make

Me sorry, I've nothing more to give

Now the time is here

And I have no fear

I'm not sorry - for all I can forgive
