

Skindeep (Ferry Corsten And Shelley Harland)

Ferry Corsten

Now I'm away from you, and you're away from me
Only I feel you here, can make it like it was
Your heart in my ear, where I placed my head for years
How can I be one
Without my heart
Without my heart No one can be a part of me
Have all the love inside of me
Now I live to dream that you're here by my side
No one can be a part of me
Have all the love inside of me
Now I live to dream that you're here by my side Do you know that I'm strong? And I will carry on
But where in my heart, on the skin of my bones
You want me to be loved to another while you're gone
But no one here will do, there's nobody like you
There's nobody like you
There's nobody like you No one can be a part of me
Have all the love inside of me
Now I live to dream that you're here by my side
No one can be a part of me
Have all the love inside of me
Now I live to dream that you're here by my side No one can be a part of me
Have all the love inside of me
Now I live to dream that you're here by my side
No one can be a part of me
Have all the love inside of me
Now I live to dream that you're here by my side No one can be a part of me
I live to dream
No one can be a part of me
Now I live to dream that you're here by my side
