

# Backyards

## Broken Social Scene

Broken boys look good sitting on their shelves  
Silent waves responds expose to fear  
Library cards, rented faces, lying on the naked train  
Hard parades with nothing skin  
Things that breathe way too thin They lost their lives in backyards  
They lost their lives in backyards  
They lost their lives in backyards  
They lost their lives in backyards Elevator, red, blue stain, best of things  
Half way between things and times, a kill  
Library cards, rented faces, lying on the naked train  
Highways and major club smell stale  
Almost eyes, a thousand things They lost their lives in backyards  
They lost their lives in backyards  
They lost their lives in backyards  
They lost their lives in backyards It's a hard parade, just be courageous  
It's a hard parade, just be courageous  
It's a hard parade, just be courageous  
It's a hard parade, just be courageous It's a hard parade, just, it's a hard parade  
It's a hard parade, just be courageous  
It's a hard parade, just be courageous  
It's a hard parade, just be courageous  
It's a hard parade, just be courageous  
It's a hard parade, just be courageous Be courageous, be courageous  
Be courageous, be courageous  
Hard parade just, be courageous  
Hard parade just, be courageous It's a hard parade just, be courageous  
It's a hard parade just, be courageous  
It's a hard parade just, be courageous  
It's a hard parade just, be courageous
