

Got It (From "Jem and The Holograms" Soundtrack)

Marian Hill

I've got this thing, gonna blow your mind
Pulling your string, helping you unwind
You want to knot, but it can't be tied
You want to steal, 'cause i can't be bought I've got this thing
Gonna tie your tongue
Step in my ring
You'll be out round one
You want to feel
but you've got no touch
You think it's love
But you think too much I got it
I got it
I got it I got this thing
Gonna break you down
You're crumbling
Till you hit the ground
You want to try
Come and have your taste
This thing won't stop
'till you can't see straight
