

# Duncan and Brady

## New Riders of the Purple Sage

Koerner-Traditional Well twinkle, twinkle, twinkle, little star

Along comes Brady with his electric car

He had a mean look all in his eye

He's gonna shoot somebody just to see them die Chorus

You know he's

Been on the job too long

Been on the job too long

Been on the job too long

Said Brady, your time done come

Now, Duncan, Duncan, Duncan, he was tending bar

Along comes Brady with his shining star

And Brady says, "Duncan you're under arrest"

And Duncan shot a hole right in Brady's breast [chorus] Well Brady, Brady, Brady, you know you done wrong

Busting in here when the game was going on

Smashing through the window, yeah, and busting down the door

Now you lying dead on that barroom floor [chorus]

Well twinkle, twinkle, twinkle, little star

Along comes Brady with his electric car

He had a mean look all in his eye

He's gonna shoot somebody just to see them die [chorus] I said Brady your time done come
