Carry Me

Joywave

Tonight I think I might explode
Nothing's right, nothing's right
Comfort me until the sun arrives

Oh you can't go ratting me out this time
You can't go ratting me out this time, no
You can't go ratting me out this time
You can't go ratting me out this time, no

Carry me
Are you strong enough
To make me feel complete
Like there's church in my heart

Carry me
Are you strong enough
To make me numb, and free
Like there's nothing to fear in the dark

I've been filling up a ditch
With anything that I can fit
Comfort me and get me through the night

Oh you can't go ratting me out this time
You can't go ratting me out this time, no
You can't go ratting me out this time
You can't go ratting me out this time, no

Carry me
Are you strong enough
To make me feel complete
Like there's church in my heart

Carry me
Are you strong enough
To make me numb, and free
Like there's nothing to fear in the dark

Sometimes it takes a hold
Sometimes it takes a toll on me

Sometimes it takes a hold
Sometimes it takes a hold

Carry me
Are you strong enough
To make me feel complete
Like there's church in my heart

Carry me
Are you strong enough
To make me numb, and free
Like there's nothing to fear in the dark
