

One More Thing

James Quall

I've just had enough
I'm drowning from too much stuff
I get scared when the telephone rings
Someone talking about one more thingOne more thing
 Yeah, it's one more thing
 One more thing to put in line
 One more thing to waste my time
 One more thing that I can't take
One more thing and I'm gonna breakYou need more, get in line
 Too many things grabbing at my time
 I'll tell you brother, right out flat
I'm gonna have to throw you backOne more thing
 Yeah, you're one more thing
 Yeah, you're one more thing to put in line
 One more thing to waste my time
 One more thing that I can't take
 One more thing and I'm gonna break
 Yeah, you're one more thing
Yeah, you're one more thingI fix my engine and the tire goes flat
 It's one more thing that I can't have
 Politics messing with my rights
There's nothing fun to do tonightOne more thing
 Yeah, it's one more thing
 Yeah, it's one more thing to put in line
 One more thing to waste my time
 One more thing that I can't take
One more thing and I'm gonna breakYeah, it's one more thing
 Yeah, it's one more thing
 Yeah, it's one more thing
 Yeah, it's one more thing
