Dashboard Devils

Channel Zero

At point black, well, you'll know
If you got the balls to win the show
So be aware if you dare
'Cause you're racin' towards gloryGo on, we're on the road
Don't give up, never slow
Go on, faster, down that road
It's war on wheelsSometimes we all need adrenaline
To feed our greed
Feel free, what's more?
To catch the big dollar feverGo on, we're on the road
Don't give up, never slow
Go on, faster, down that road
It's war on wheelsSomething's going wrong now
I feel it
Pushing my luck over the edge, yeah
But I'm fucking fearlessJust a little bit, just a little bit, just a little bit
Just a little bit, just a little bit, just a little bit, just a little bit faster
Just a little bit, just a little bit, just a little bit
Just a little bit, just a little bit, just a little bit, just a little bit faster
