

Fall Out

The Police

I never followed leaders, I got no machine

And I paid my dues all along

Always says your freakin'

When I mess with other people

'Cause I knew that I was really aloneFall out, fall out with all the leaders and guys

Fall out, fall out with all the leaders and guysI saw my education, it was my indoctrination

Just to be another parking machine

Always says you're freakin'

When I mess with other people

'Cause I knew that I was not very cleanFall out, fall out with all the leaders and guys

Fall out, fall out with all the leaders and guysHenriFall out, fall out with all the leaders and guys

Fall out, fall out with all the leaders and guysFall out
