

# Everything Comes and Goes

**Michelle Branch**

Time is going by so fast  
And I can't do anything about it  
I've been holding on so long  
It's time that I can do without it Everything comes and goes  
I'm always the last to know  
And I can see the sun come up  
Another day You were looking for some fun  
And I was asking for a heartache  
I could turn my head and run  
Or I could learn it all the hard way Everything comes and goes  
I'm always the last to know  
I can see the sun come up  
Another day You should make up your mind  
After all of this time, all this time Everything comes and goes  
I'm always the last to know  
I can see the sun come up  
Another day I can see the sun come up  
Another day
