Free Forever

Metalium

I am free nowI'm through the ring, I've seized the power
Anticipate the taste of valor
I'm on the move chrome covered in my armorEndowed with skill I seek my target
I wield the sword it's blade of light
Evil cannot match my own convictionFree forever
Come together
Fight for splendor
We'll rule the universeHonor and truth become eternal
Communion with utopia
We overthrow and crush the infernalWe right the wrong through brotherhood
A privileged to be understood
But fear the weakest link in our existenceFree forever
Come together
Fight for splendor
We'll rule the universeFree forever
Come together
Fight for splendor
We'll rule the universeFree forever
Come together
Fight for splendor
We'll rule the universeI am free, yeah
Forever
