Have You Ever Seen The Rain

Boney M

Someone told me long ago
They were gone before the storm
I know, it's been coming for sometimeBe it so, and so I say
Little rain and sun by day
I know, shining down like waterI wanna know, have you ever seen the rain
Coming down, down this day
Coming down, down this dayYes for days and days before
So there's is rain and cold is hot
I know, in this place got all my foundThrough the circles fast and slow
There for every moment goes
I know, I can't stop, I wonderI wanna know, have you ever seen the rain
I wanna know, have you ever seen the rain
Coming down, down this dayI wanna know, have you ever seen the rain
I wanna know, have you ever seen the rain
Coming down, down this day
