

The Sun Loves The Moon

Embrace

She is cold like water
She is dark like night
She fears love and
 Looks for pain
I cry with the trees
I sing with the wing
I am the child of moonlight
 I am the child of doom
She loves the moon
 Like I used to do
She loves the moon
 Like the day loves the night
Like the sun loves the moon and
The call of the wild fills her heart
 I can't live without my life
 I can't live without my soul and
I am looking for you every autumn night
My life didn't begin until I saw your face
Why have you not come back to me?
 She loves the moon
 Like I used to do
 She loves the moon
 Like the day loves the night
Like the sun loves the moon and
The call of the wild fills her heart
