

Won't You Share This Dream of Mine

Neil Sedaka

After November the days of December
Are coming close
This is the time in the cold of the winter
I miss you most Dreaming about you
And crying the tears don't feel so fine
So won't you share this dream of mine? Over and over I stare at the script
And I write the words
Thinking about you and writing the phrases
You haven't heard Having you close to me
Body and soul would be so sublime
So won't you share this dream of mine?
I dream of you
All the night and all day through
Let me know
Won't you let your feeling show I'm going crazy and thinking that maybe
The phone would ring
It would be magic and that would be getting
My heart to sing All I can do
Is keep thinking of you and this dream divine
So won't you share this dream of mine? Sad affair
I dream of you but you're not there
What can I do?
I'm hoping that this dream comes true
I count the days that you're staying away
And I miss you so
You had a plan but I don't understand
Why you had to go I keep on looking
But I really know that I'll never find
Someone like you to share this dream of mine
So won't you share this dream of mine?
