And I'm gone put yo ass in some baby shoes

And I don't mean the ones that your babies use
I know I talk about my niggas a lot
But I shoot too

Give me something to nut up about And watch me shoot you

I woke about 6 in the mornin'

Gotta get paid, fuck moanin' and groanin'

Hit the block, get the truck rollin', rollin'

By the night time our pockets is swollen, swollen

I woke about 6 in the mornin'

Gotta get paid, fuck moanin' and groanin'

Hit the block, get the truck rollin', rollin'

By the night time our pockets is swollen, swollen

From dust to dawn, we stay posted up in project homes

Keep a plastic tone, y'all want it bring it on

We'll creep up in yo home, hangin' by yo bitches thongs

Say you's a gorilla, say what happened to King Kong

We real play makers and this is not ESPN

Welcome to the gutter, now watch the shit fest begin

Ain't no fuckin' Jack Triple but I'm bakin' cakes

Plus my cakes triple, what that fag makes

Fuckin' just to stay awake, makin' sure I never stumble

Granted till my bank statement look like social security numbers

Call us cookie monsters, makin' cookie niggas crumble

Catch a double digit jersey number if you fumble

I'm gone tote the poll lock and load

Shoot till you hear that bow

Take my time, speak my mind like I'm [Incomprehensible]

Got a country slang, baby, you can tell, ain't it

You can kill too, a lot of us got them feds at us

Still keep a stankin' kitchen

'Cuz in the midst of the caine

On the way, the crack smell durin' the intermission

Triple beam hand held hanksty

Got some caine stain colored on the finger nail

Chrome black dished back up til I [Incomprehensible]

Saw him walk a thin line but it's not a fat red

I'm gone rap for these packed heads

Gats crack, sells sex and blacks that want to stack mils

Smokin' on the purple stack

Runnin' in yo house ramblin' wondering where the work is at Hoes in the third, still hollerin' where the purses at

Phone in Atlanta, ring the family where they murked at

6:45 am, life's great, got the bacon soda

I'm cookin' pancakes, that's right

Where I'm from nigga, I'm the man Take him out, break him down like a lap dance I ain't playin', I got hella choppers Call my partnas then they got helicopters, that's right Just like my old job but a lil' different, what I used to work at churches chicken But now I cook my chicken to my own kitchen A kitchen fork and a glass pocket Try to rob if you want get ya ass shot I woke about 6 in the mornin' Gotta get paid, fuck moanin' and groanin' Hit the block, get the truck rollin', rollin' By the night time our pockets is swollen, swollen I woke about 6 in the mornin' Gotta get paid, fuck moanin' and groanin' Hit the block, get the truck rollin', rollin' By the night time our pockets is swollen, swollen
