

Here We Are

Emmylou Harris

(with Rodney Crowell)

Did you say that you've been searching for a place you've never been
Well here it is, here it is
And you've down there on the bottom and looking out for friends
Here I am, here I am

We've both grown tired of running after rainbows
Here we are, darlin', here we are

When it feels like you've been drifting and you don't know where you've been
Come on in, you can come on in
And if all you've seen are backdoors that lead you out of town
Turn around, you can turn around

We've both grown tired of running after rainbows
Here we are, darlin', here we are

We've both grown tired of running from each other
Here we are, darlin', here we are
Here we are, here we are
