Evergreen

Dark New Day

I've been living it my way, I've been living it for myself
It's the things that you don't say about the way that I know you've felt
Everything right in my eyes, two are one and as a whole
Pour yourself into my life, I can't feel without your soul
Say that you'll find no one else
I pray that you find nothing
To tarnish the shine on what we've built
Beneath you and I
Living our lives evergreen
I've been given the one thing, I've been given the greatest gift
I've been sheltered on my way, covered by all you give
Greater good shines in my sky, I bathe in its precious glow
Grounded in the heart of life, I've got something that can grow
Say that you'll find no one else
I pray that you find nothing
To tarnish the shine on what we've built
Beneath you and I
Not affected by the ever changing world around us
We're protected by the things we share so deep inside us
Say that you'll stay
We'll stay evergreen, evergreen
Say that you'll find no one else
I pray that you find nothing
To tarnish the shine on what we've built
Beneath you and I
Living our lives evergreen
