Leave Me Out

Orgy

[Incomprehensible] Leave me out of itI know you don't mind
Invading my space, just leave me alone
Just because you think I'm wasting your time
I'm losing my mind again, let's get it startedI think I'm losing my mind this time
With the drama you create all the time
Look up, heard your worlds a mess
Now you're out of my head from the lack of respectSuffer the aftermath
If you pass the test then you pass the class
And I know you'll never find out the reason whyDon't need this pain
That keeps fucking with me in my life
Leave me out of it
Forget about this pain that keeps fucking with me in my life
Leave me out of it, so leave me out of it
Leave me out of it, so leave me out of itI'll never be the kind
To follow in your footsteps
All your pocket's filling up with lies
You and your bitch as friendsI think I'm losing my mind this time
With the drama you create all the time
Look up, heard your worlds a mess
Now you're out of my head from the lack of respectSuffer the aftermath
If you pass the test then you pass the class
And I know you'll never find out the reason whyDon't need this pain
That keeps fucking with me in my life
Leave me out of it
Forget about this pain that keeps fucking with me in my life
Leave me out of it, so leave me out of it[Incomprehensible] Leave me out of itI don't need this pain
That keeps fucking with me in my life
Leave me out of it
Forget about this pain that keeps fucking with me in my life
Leave me out of it, so leave me out of it
Leave me out of it, so leave me out of it
Leave me out of it, so leave me out of it
