Real Love

Eric Benet

Oh babe
Don?t you know you we got a real
Real love ooh
Precious, a word that comes to mind
When the morning comes and you?re asleep by my side
Cherish a word that could describe
How our love has stood the many tests of time in our lives
There's a whirlwind of changes this life may bring
But the real thing just holds on come what may
[Chorus:]And we've got something real, real love, real love uuh
Real love,
In a world full of make believe
We got something real good, real love
Yes, real love, I bet everything on you and me
I love you not just for who you are
For the way you made a better man out of me
Now I try, I try, I swear baby every day I try
To live a life deserving of this joy
You give to me, oh to me

Now you got your funny ways girl
Lord knows I've got mine
But keep on getting better, better all the time
And we got some real love, real love uuh
Real love,
In a world where nothing?s what it seems
We got something real good, real love
Just standing strong for the whole word to see
Don?t ever question what my heart needs tomorrow
Girl I just want the same old love you gave me today
We got it for sure
Kind of love that knows that joy brings some sorrow
But we can?t go wrong if we just hold on
Ain't nothing strong..
[Chorus:][2x]Don?t you know we got a real
Don?t you know we got a real love for sure
Don?t you know we got a real
Don?t you know we got a real love for sure
