

We Will Meet Again

VAST

Where have you gone
My love my friend
Somewhere without the rain
I feel afraid now, I feel alone
Will we meet again
Can you recall what we once knew
Somewhere without the pain
I feel afraid now, but not alone
We will meet again
I can't hear your voice
But you know I feel your soul
I can't hear your voice
But you know I feel your soul
Where have you gone
My love my friend
Somewhere without any pain
I'm not afraid now I'm not alone
We will meet again
