

Angel

Aleesia

Angel by aleesia
I can't figure this out
I'm stuck on this cloud
And I don't think I'm crazy
I am never coming down
He makes my heart pound
Yeah he's so amazing
I never thought somebody
Like you really existed
Close my eyes and
Make a wish
He must be an angel, angel
He must an angel
Falling down, yeah
He must be an angel
Got me an angel
F-F-falling from the heaven above
Take me with you
To, heaven (3x) yeah
He's always on cue he know just what to do

To, make me feel so good
And when he comes around
I'm all upside down
And I feel like I cant breath
And I feel like I cant breath
I never thought somebody
Like you really existed
Close my eyes and
Make a wish
He must be an angel, angel
He must an angel
Falling down, yeah
He must be an angel
Got me an angel
F-F-falling from the heaven above
Take me with you
To, heaven (3x) yeah
Don't know what he did

But I cant get him out
Of my mind
He must be an angel
