Goodnight

Egypt Central

A light comes through the glass
And shines in on the past
The day you left too fast
The day I saw you last
A faded photograph
The time we thought we had
And I just want you backGoodnight, goodnight
This pain won't last forever
I'll bury this, bury this inside
Please don't say goodbye
Goodnight, goodnight
It doesn't mean forever
I'll bury this, bury this inside
Its my last kiss goodnightYour there in black and gray
Your always in the frame
It's like you always say
Things never stay the same
A faded photograph
The time we thought we had
And I just want you backGoodnight, goodnight
This pain won't last forever
I'll bury this, bury this inside
Please don't say goodbye
Goodnight, goodnight
It doesn't mean forever
I'll bury this, bury this inside
Its my last kiss goodnightIf I could go back in time
If I could take back words
I swear I could save your life
No one knows how bad this hurtsTaken too soon
You know I lost the best in me
To go on without you
I lay you down to sleepGoodnight, goodnight
This pain won't last forever
I'll bury this, bury this inside
Please don't say goodbye
Goodnight, goodnight
It doesn't mean forever
I'll bury this, bury this inside

Its my last kiss goodnight
