

# Sixteen

## Porches.

So they say I was sometimes cruel  
I dont know if I would say that too  
    Oh I, I don't know about that  
Everyday the sky reminds me still  
    Yr not here and it always will  
    Oh I, I don't know about that  
        You

    I try my best to play along  
Like nothing's over and no one's gone  
    But I, I don't know about that  
    I don't know about that  
If I tried harder you'd, still be here  
    Is it true?  
    Oh I, I don't know about that  
        I don't know about that
