

# Miss Firestarter

## Midnight Red

So wild, perfect design, nothing about her is mild  
Hot like the Moroccan nights, nothing can cool her down  
Sparks fly when she arrives, lady's like dynamite  
Oh my she's about to ignite, burn the house to the ground  
She cannot be tamed  
I cannot behave  
I cannot be saved 'Cause she's got me burning with desire  
Ms Firestarter  
There she goes again, oh  
Burning like a flame, hotter than lava  
Ms Firestarter And people might say that I'm crazy  
For getting involved with this lady  
But when the smoke clears I know we will be just fine  
Ms Firestarter No I, I, I don't mind being victimized  
Her thought drives, invading my life,  
She's more than welcome inside.  
All night, no matter what time,  
The door's unlocked, alright.  
Oh my, she's about to ignite,  
Burn the house to the ground. She cannot be tamed  
I cannot behave  
I cannot be saved 'Cause she's got me burning with desire  
Ms Firestarter  
There she goes again, oh  
Burning like a flame, hotter than lava  
Ms Firestarter And people might say that I'm crazy  
For getting involved with this lady  
But when the smoke clears I know we will be just fine  
Ms Firestarter She got me burning up and I can never get enough  
She got me burning up and I can never get enough  
She got me burning up and I can never get enough  
She got me burning up and I can never get enough  
And people might say that I'm crazy  
For getting involved with this lady  
But when the smoke clears I know we will be just fine  
Ms Firestarter 'Cause she's got me burning with desire  
Ms Firestarter  
There she goes again, oh  
Burning like a flame, hotter than lava  
Ms Firestarter And people might say that I'm crazy  
For getting involved with this lady

But when the smoke clears I know we will be just fine  
Ms Firestarter
