

# Ride My Star

Julian Perretta

The sun looks hot  
And the grass looks green  
And her face looks pale  
Under my rainbow machine. So I took a bite

From a honey tree  
And the stars turned angry

As they looked down at me. She said, do you, do want to, want to.

Do you, do you want to, do you do you want to, she said, ride my star, all night. Where did you come from girl

Are you from some other place  
'Cause you're far from heaven,  
Even to my level,

And you're starting to make me hate. Don't let me fade away

I've only got 4 more lives to live

And there's an angel sat with my finger tips

When in all on my body. Do you do you want to, want to.

Do you do you want to, want to.

Do you do you want to, want to.

Ride my star all night
