

Don't Let Them See You Cry

Manchester Orchestra

Don't let them see you cry
When the dam breaks down
And the city's covered in water 'Cause I believe we fly
When the moon takes shape
And I dose off, on your shoulders
And the trust you see, it's you So breathe while you're alive
Let the big band play
As you tap leather with your fingers And I tried to write in style
But the words just come
And I write them as soon as I see them And I trust that you write them too
And I trust that you love me too
