

Motorway

emmet swimming

Never lit a fire in your eyes
That's what he said to me
It should really come as no surprise
I bruise that easily Can't stand living
So we wait for another day
I'll pull through
I know you can't stand me
But we're stuck here anyway
A motel room in nowhere Nevada We're just lost on the motorway
I turn to you, you've got nothing to say
And we're just wasting days away
It's fifty miles to Reno
And we're staring at the desert Never felt a pain that hurt too much
That's what you said to me
Lately it seems you've been out of touch
We both break so easily Can't stand living
So we wait for another day
I'll pull through
I know you can't stand me
But we're stuck here anyway
A motel room in nowhere Nevada We're just lost on the motorway
I turn to you, you've got nothing to say
And we're just wasting days away
Something is lost on the motorway I guess our dreams sort of got in the way
And strung us along for another day
We'll kiss when we drop off the car in L.A.
But something was lost on the motorway
