## Group 1 Crew

Ladies and gentle  
The sound is fresh

In the flesh Call your neighbor up  
Cause you rockin' with the best yes!

To the E- double "V",  
Could it be  
We got the world chasin' a dream  
Could it be  
They callin' us  
Modern Luther Kings  
A team of 3 cats  
And a king  
A tale unfolds  
While the whole world is  
Watching  
Word on the street is  
We the Fugees with a swing  
But I say we are What they could have  
Been with the trinity  
You listening  
To a man that's free  
He gave me the keys I free'd slavery I  
Write mean sixteen's  
So y'all can feel me  
And I write liberty  
So y'all can feel he! Shut the door man come on in,  
There's a new thing about to begin,  
Bring the party to life,  
We see them dead get the oxygen  
There's a new thing about to begin,  
Bring the party to life How ya doin' man,  
I'm about to ruin any group 1 opinion that you might have had,  
See we the soul train part of this game  
And no fame is gonna make us change (that's right),  
What it been like,  
We done traveled the world and haven't seen nothing better

Than Christ (sho you right)  
This ain't cocky you watch me  
While I watch he who bought me like I was eBayed and not cheap,  
So its only right that I let this microphone  
Become part of my bones while I give it life,  
What you're hearing is an exhale god breathes  
And I receive flow so you can't tell,  
Who this be when we ride this beat we 3 deep in the front seat with destiny,  
Make no mistake homy we goin' reap  
What sown new rights to homes  
While god makes us right at home I hit the spot 8 o'clock I be rockin' it,  
Keep it live when I arrive ain't no stopping it,  
Hit the dance floor breaking, poppin, lockin' it,  
Like a Rolex everybody's watching this, never  
Knew Christ could be so marvelous we the crew  
That you can't forget we own this, so get your  
Shoes on and you're lookin' right  
Everybody in the spot bring the party to life
