Nothing Is Wrong

Gomez

Sometimes I feel like something is wrong
And the same goes for you
But you're not seeing the world at all, are you?
The same goes for meWell this is not the be all and end all for us
The being and the ending and all the above
There is more I used a little
A little used to be too much for meBut we're not here to judge you
We wanna be your friends now
And we can make you feel like everything that's gone wrong
Happened for a reasonSomehow I feel like signing up
And the same goes for you
Sometimes your signature's worth nothing at all
And the same goes for meBut this is not the being and ending of us
The being and the ending and all the above
There is more I used a little
A little used to be too much for me, for meBut we're not here to judge you
We wanna be your friends now
And we can make you feel like everything that's gone wrong
Happened for a reasonWell, you can come with us now
There's no need to be scared, be scared now
'Cause we can make you feel like everything that's gone wrong
Happened for a reasonThis is not the be all and end all of us
There is moreThis is not the being and ending of us
There is moreThe being and the ending and all the above
The being and the ending and all the above
You want more and more and more
A little never was enough for me, for me'Cause we're not here to judge you
We wanna be your friends now
And we can make you feel like everything that's gone wrong
Happened for a reasonAh, you can come with us now
There's no need to be scared, be scared now
And we can make you feel like everything that's gone wrong
Happened for a reasonYeah, we can make you feel like everything that's gone wrong
Happened for a reason
Yeah, we can make you feel like everything that's gone wrong
It happened for a reason, it happened for a reason
