

Elusive Youth

Elephant

I had a thrive
She flies like a phoenix
Here she comes
A hollow and a how
The crows are already here around
These are fun We draw the tails and we set sail
She's become
The talk of the town
She wears the city crown
Damsel of the town It's elusive
It's elusive
It's elusive With him day and night
Time is chasing light
And she's around
?We draw the tails and we set sail
She's become
The talk of the town
She wears the city crown
Damsel of the town It's elusive
It's elusive
It's elusive This girl, she wishes
This girl, she wonders
Time is on her side
But love can still come This girl, she wishes
This girl, she wonders
Time is on her side
But love can still come It's elusive
It's elusive
It's elusive
It's elusive
