Ring the Bell

Crave

Verse 1
This walk is hard
I feel the weight is wearing down
I can't do this on my own
But in this darkness
I can see your light
It's shining down
Now I know which way is home
Chorus
Ring the bell
Let them hear what you've done
Oh I'll ring the bell
Cause your the prize that I want
Let them hear what you've done to my heart
Verse 2
Let's just be real
Tell me Who are we trying to fool
We can't keep on believe these lies
We were made for so much more
Let our hearts unite as one
As we make a joyous noise
And lift our voices
Bridge
It's the sound of my heart breaking free
It's the sound of your voice
Singing over me
