

# Surfacing

## Drist

I thought I fooled you all, here  
In this shallow surfacing  
A ring around it all, showing you  
This is all I knowThought you gave it all, right here  
But I saw it go down  
You became it all, wants and needs  
And I saw it goIf you only could seeI can't give you up, if only I could  
I can't lift you up, if only I should
