

# Arrows in the Dark

## The Sword

Bound for the black country  
as the light recedes behind  
Upon the white odonatar  
Witch's vision as their guide Be wary and keep watch tonight  
Make sure your weapon's at hand  
Here in the land where shines no light  
death can strike you where you stand There in the ruins  
borne of darkness  
Approaching the altar  
as the arrows begin to fly Beware the tribes of night  
They take no one alive
