

Play Stop Rewind

Pyro Fighter

Flip switch, the subs shake the walls
Hips like a phaser watch em sweep rise and fall
Twistin wave shape dials, I'm locked like a vault
Trippin on lasers while I beat match my pulse
You can step out of your world, and step into mine
I'm gonna show you my sonic design
We're in a digital snow globe I made with my mind
Now watch me drop that hook again just one more time
Hit Play Stop Rewind
Light speed to max out my whips
Hot like a taser with my ionic tricks
Keep your life line jumpin with my magnetic lips
You'll lose your vision from my ROBOTIC KICKS
You can step into my word it's easy to find
Give me your stardust and I'll give you mine
We're in a digital snow globe I made with my mind
Now watch me drop that hook again just one more time
Hit Play Stop Rewind
This track and a stereo bumpin is all ya all ya really need, you know it's all the all the
same to me
I'll make you go from sparkling clean to straight filthy.(break)Play Stop Rewind
