Shadows Passed

Elephant Revival

if you say leave me far behind then, I wont bother you no more
wont bother, wont bother no more
1234
dry your eyes, look inside, where we find the what
maybe I wonder we deny the .. . .. shadows

tell me our shadow fast can change though does exist, we exist,
as is, as is, as is,

maybe ill find you open-handed, intertwined, your dream alive
knowing love, knowing love, love
