

# Shadows Passed

## Elephant Revival

if you say leave me far behind then, I wont bother you no more  
wont bother, wont bother no more

1234

dry your eyes, look inside, where we find the what  
maybe I wonder we deny the ... shadows

tell me our shadow fast can change though does exist, we exist,  
as is, as is, as is,

maybe ill find you open-handed, intertwined, your dream alive  
knowing love, knowing love, love
