I Can Feel It

Sloan

She came running
I hate everything that came before me
Crushed, I'm breaking under the crushDon't ignore me
'Cause you know I can always make it louder
Three, three is nothing out of tenBut you've got a thing for me
I can feel it, I can feel it
And I've got a thing for you too
You can have it, you can have itI've been running
Just to get away from what's inside me
Rush, I'm drowning under the rushHappy birthday
To the best brother in the world
Hooray, at least I'm still cool to one girlBut you've got a thing for me
I can feel it, I can feel it
And I've got a thing for you too
You can have it, you can have itYou've got a thing for me
I can feel it, I can feel it
And I've got a thing for you too
You can have itNo strings attached, no copy to match
No drift to catch, no plans to hatch
No itch to scratch, just infatuation is all you needYou could tell a million lies
And I'd think they all were true
Trust, that's my trust in youIt's what I value and it's what I refuse to lose
You've got a thing for me
And I've got a thing for you too
